SUMMARY

Developer with commercial experience in building interactive platforms and modern web applications. Specialized in creating efficient and user-friendly interfaces and solving complex UI challenges using modern technologies. Actively practicing Next.js and Tailwind to further enhance my professional skills. English level B2 – capable of discussing project details, resolving client issues, and providing technical explanations. Seeking a team where I can develop stable and functional solutions that meet modern technical standards, stand out in the market, generate profit, and attract new users, while continuing to grow as a developer.

SKILLS

Programming Language:
JavaScript, TypeScript

Front-End:
- Libraries & Frameworks:
  React, Next.js, Vue.js
- State Management:
  Redux, Context API
- Styling & Markup:
  Styled Components, Material UI, Tailwind, Semantic Markup, HTML, CSS

Back-End & API Integration:
- Libraries & Frameworks: **Node.js**
- APIs: **GraphQL, REST API**

Development Tools & Version Control:
- Version Control: **Git, GitHub**
- Package Managers: **NPM, Yarn**
- Development Tools & Design:
  VS Code, Figma, Miro, Photoshop, Corel

Project Management & Collaboration:
- Tools: **ClickUp, Slack**
- Methodologies: **Agile, Scrum**

Languages:
- **Polish:** B2
- **English:** B2
- **Ukrainian:** C2 (Native)
- **Russian:** C2

WORK EXPERIENCE

"Digital Creative Cluster" | "Learning-Space Sp. z o..o."   **(June 2022 - Present)**
Front-End JavaScript React Developer

Overview: An interactive educational platform designed for teachers and students, featuring a modern and unique approach with functionality unmatched by any other platform in Poland.

My Role: Created approximately 50% of the project's front-end functionality, including reusable custom components, styling, and backend integration using GraphQL. This improved the platform's stability and maintainability, reducing development time for new features by 30%.

Key Contributions:

- **Process Optimization:**

Developed custom hooks and optimized code to avoid duplication, which reduced development time by 40% and streamlined scalability for future updates.

- **Feature Expansion & User Experience:**

Designed a multi-step course generator and payment flow generator, accelerating content creation for users by 4 times. Additionally, developed features for tracking student progress and displaying comprehensive course statistics, enabling instructors to monitor performance across individual and multiple courses.

- **Sales and Analytics:**

Developed components for sales tracking and data analytics, allowing users to view real-time statistics on product performance and customer engagement.

- **Content Management Solutions:**

Configured Webpack for front-end content storage (logos, regulations) used in email distribution, eliminating the need for paid third-party resources and saving company expenses.

- **Client Acquisition & Project Growth:**

Developed and delivered critical project features on time, which contributed to the acquisition of 3 new clients and investors, securing funding for further development.

- **Localization & User Customization:**

Implemented multi-language support (en, pl, it) and customized content spaces for different user needs, enhancing the platform's flexibility and expanding the target audience.

- **Enhanced Front-End Frameworks:**

Led the upgrade of Material UI from versions 4-5 to 6-7, enabling the use of the latest features and improving UI consistency across the application.

- **Team Collaboration & Quality Control:**

Conducted regular code reviews to maintain high-quality standards and prevent production issues, assisting new team members with onboarding and ensuring efficient integration into the development process.

PROJECT EXPERIENCE (2020 - Present)
"PORTFOLIO - about me".

OTHER WORK EXPERIENCE
"Faurecia"| "Forvia" (2018 - 2022)
Operator
- I consistently met production targets and maintained high standards of quality and efficiency, resulting in a 20% decrease in the number of complaints.
- Contributed to process improvements that increased output and resulted in a 10-20% decrease in defective products.
- Collaborated effectively with team members to ensure smooth operations and adherence to safety protocols.

EDUCATION
Cherkassy Branch of Private Higher Education Establishment "European University" (2006 - 2011)
Finance

IT School "GoIT" (2021 - 2022)
Full Stack Developer (JS, React.js, Node.js, Html, CSS)

Policealna Szkoła Zawodowa "Eduatut" (2018 - 2020)
IT specialist

OTHER EDUCATION
English School "Study Less" (2022 - 2023)
Upper - Intermediate

"Academy of language" (2019 - 2020)
English language course

"Graphic designer" (2019)
Photoshop, Corel
